After comparing 2 consecutive weeks scores, the highest 3 game total from each division will be used for tournament advancement. The top bowler in each division will advance to the **In-Center Roll-off**, plus 1 additional bowler for every 2 entries thereafter, (i.e., 3 entries, 2 advance, 5 entries, 3 advance etc.). The center advances 1:2 bowlers per division. Leagues independent from one another at the same center may qualify separately (i.e., bowls on different day of week or unaffiliated from "house" league). No entry fee at this level.
- B. **In-Center Roll-off** - All divisions will bowl 3 games & use handicap based off of highest average (See **Averages rule IV**, above). The highest 3 game total from each division will be used for tournament standings. **The top finalists in each division will advance to the State Finals at a ratio of 1:4 entries per division, (One Bowler in Each Division out of every four bowlers (1:4) will advance to the State Finals).** At the In-Center Roll-off bowlers will be responsible for the \$25 Entry Fee (\$15 Prize & Expense Fee + \$10 center lineage fee).
- C. **State Finals** - Those advancing from the In-Center Roll-off will bowl on May 21 or May 22. All divisions will bowl 3 games at the State Finals. The winner in each division will be declared Tournament Champion. There are no additional fees at the State Finals.
