United Waste Solutions, LLC

A Partnership That Really Works!

United Waste Solutions delivers significant cost savings on waste disposal services to clients through its nation-wide group purchasing platform. By leveraging the collective buying power of thousands of facilities across 20+ industries, UWS has created millions in savings over the past two decades. The typical UWS client saves 25%—60% with no out-of-pocket cost or major time investment.

And because there's no requirement to change vendors, UWS can help even if there's an existing waste contract in place—which is the case most of the time.
